

Everyday Enjoyment for Leisure and Business

Add a touch of enjoyment to your life! The GW2760HM brings together outstanding image quality from VA panel technology and high performance features in a stylishly fashioned body – making the latest visual technology an integral part of your home and workplace décor.

BenQ LED Monitor GW2760HM

Designed to Please Your Eyes

BenQ, a world-leading brand in LED visual technology and the creator of the world's first VA LED monitor, has taken the lead to build a full lineup of VA LED monitors for home and office – starting with the GW Series! It blends perfectly with any décor, adding a hint of low-key elegance to your living space with its high-gloss frame and base stand streamlined by a curvaceous neck that creates stunning visual fluidity. Beautiful from any angle, the back of the GW2760HM is carbon fiber patterned to recreate the powerful drive of a racing car and energize their whole appearance.

Oval Sta

Stand Patterned Back Slim B

Deep Blacks and Minimized Light Leakage Enjoy the flawless layering and precisely contrasted details in even the darkest images! Free of bright spots with low light leakage, VA panels are designed to deliver naturally deeper blacks with optimum contrast performance.

Slim Bezel Sophistication

The GW Series monitors incorporates a 16mm slim bezel display to create a sophisticated look while keeping things nice and compact. You'll find multi-panel configuration for home entertainment or office viewing use much simpler with less distraction from the monitor frame.

Reading Mode for an Optimized Reading Experience

For a more comfortable reading experience, BenQ has adjusted the monitor's color temperature, brightness, contrast ratio and sharpness to create the all new Reading Mode which simulates the look of printed paper to help reduce the eye discomfort typically caused by prolonged and focused use of eyes on computer monitors.

5,000:1 Native Contrast Ratio for Color Depth and Definition

Featuring an ultra-high native contrast ratio of 5000:1, the GW2760HM adds incredible color depth and definition to darkened and complex visuals. Everything you see – from the brightest white to the deepest black – is perfectly rendered to bring images to life.

HDMI Multimedia Interface

The latest HDMI high-speed multimedia interface makes it incredibly convenient to connect the GW2760HM to your multimedia setup. Enjoy your digital entertainment effortlessly.
